

God's Plan Our Purpose
Aletheia Core Values
Acts 18

No more wasting time-we all know what that is like, investing vital, irretrievable periods of time which often follow well intentioned but misguided and sterile spiritual policies. So let's look at some highly spiritually reproductive activity that is actually promoted by God.

1. | WIN | Connecting a person with God through a message that is specific in content

2. | BAPTIZE | The Public Demonstration Of A New Life In Christ

From here we must ask ourselves a few questions:

How should "winning" people to Jesus personally impact me? If I am not comfortable with evangelism (people coming to faith in Jesus) or if I feel that it is not my "gift", should I give it any attention at all?

Should the issue of encouraging people to become baptized be left up to church leadership, or should I emphasize it as part of the spiritual process that fulfills the Great Commission?
